

Largs and Millport Information Bureau Grant from Kelburn Wind Farm Community Fund

Largs & Millport Information Bureau secured a grant of £1000.00 from the Kelburn Wind Farm Community Fund. As the Bureau is funded only by advertisers and the occasional donation this grant was very gratefully received.

The money was used as detailed below:

- We purchased a new computer system, with larger screen and better, faster internet access. This enables us to find information and answer queries for our customers using the internet.
- We also purchased a Digital Photo Frame which shows a stream of images of Millport and Largs. This is very helpful for showing customers different places to visit and enhances the appearance of the inside of the bureau.
- Lastly we had the bureau frontage painted and upgraded. This has given the bureau a much improved and more professional appearance.

All these improvements have been warmly welcomed by our volunteers and customers alike.

Shelagh Doyle
Co-ordinator
Largs and Millport Information Bureau.
