

Largs Accordion Club
Grant from Kelburn Wind Farm Community Fund

In July 2013, Largs Accordion Club received a grant of £1490. The award was used, along with contributions from the club funds and members to purchase a PA system (amplifier and speakers) and five iPad music storage and display systems.

Both the PA system and iPad systems are now in regular use by the Club in practice and performance, and are proving to deliver the benefits originally foreseen before their purchase.
